Member Brotman finally asked if the Governing Board preferred a written report to an oral report. Chair Bowman expressed a preference for a written report as it is easier to share with his home jurisdiction but said that an oral report is better than nothing. Member Rossi concurred.

He also noted that the group meets as-needed but are looking to meet and report-out to the Governing Board on a more formal basis. He also answered Governing Board questions.

Board member Rossi noted that only Burbank, Glendale, and Pasadena were mentioned in the report as coordinating efforts to respond to SB79 and asked that the various agencies work together to maintain the historic character of the subregion in an area of potential increased density. She also asked if there was an infrastructure component to the funding to plan for the potential growth.

Public Comment
Adam Goldberg, resident of North Hollywood, encouraged the various agencies to build more housing, and suggested implementing a vacancy tax to encourage developers to rent or sell the housing that they build.

Board Member Brotman asked if Cities have the authority to withhold permits to Metro regarding the Bus Rapid Transit Project. Mr. Kriske noted that this is a gray area, but that Metro agrees to abide by the permit process for construction. He also noted that Burbank specifically is requesting a new environmental impact study under CEQA that takes SB 79 into consideration. The letter from Burbank was shared with the Governing board after the meeting.

Vice Chair Mullins noted that cities voices are stronger together and offered to share a letter with the Governing Board that Burbank had sent State Senators about infrastructure funding in the face of SB 79.
