Arroyo Verdugo Communities Joint Powers Authority

ITEM# IX B

DATE: August 6, 2026

TO: Governing Board

FROM: **David Kriske, AVCJPA Transportation Advisory Committee Chair**

SUBJECT: AVCJPA Transportation Advisory Committee Update

RECOMMENDATION

Note and File.

BACKGROUND

The AVCJPA Transportation Advisory Committee (AVCJPA TAC) is made up of transportation staff from AVCJPA member jurisdictions for the purpose of advising the AVCJPA Executive Director and Governing Board on transportation matters. This report summarizes the AVCJPA TAC's discussions since the previous Governing Board meeting.

DISCUSSION

Measure M Subregional Funding Discussion

On July 2, 2026 the AVCJPA TAC met to continue coordinating programming of the subregion's Measure M funding. Metro provides funding as part of Measure M the AVCJPA to fund certain transit, active transportation, and highway projects and recently released an additional $51 million funding for the next two-year allocation. On July 2, the AVCJPA TAC met again with the subregion's consultant, Cambridge Systematics, to review the status of each jurisdiction's project submittals to the consultant team. Consultant staff provided an overview of the overall funding request for the subregion, compared the funding requested to the year-by-year allocation provided by Metro, and discussed relevant Metro staff feedback on each jurisdiction's projects. The TAC reviewed the upcoming deliverables needed to meet Metro's programming deadlines and confirmed that each jurisdiction would complete required public outreach to its appropriate Board, Commission, or City Council. The TAC's review of the projects, cash flow requirements, and ability to meet Metro funding deadlines is reflected in the Executive Director's recommendation to the AVCJPA Board to approve the updated draft Measure M funding plan under an agenda item included on the August 6, 2026 Board meeting.

FISCAL IMPACT

There is no Fiscal Impact to receive this AVCJPA TAC update.
